# Katie Bobbe

kcbobbe@gmail.com | (919) 259-5847 | Chapel Hill, NC | https://github.com/kcbobbe

I am a front-end developer who is excited to build upon my existing skills and contribute to a diverse and innovative team. I believe that empathy is the key to building intuitive applications that users will understand and love.

## Experience

**2018** — **Momentum Learning**

Durham, NC | 12-week immersive coding program | Front-end development

- Q-seum — A mobile-first web application that uses personalized QR-codes to support a more pleasant and efficient check-in experience for museum members and visitors
- Memory Cards — Share and discuss memories and stories about favorite video games
- Eavesdropper — Check trends on Twitter, Youtube, and Flickr

**2016** — **Assistant Producer | Voltage Entertainment USA**

San Francisco, CA | Interactive visual novel apps for iOS and Android

- Worked closely with a six-member team to produce and release content for three apps
- Optimized data entry workflow, increasing productivity by 50%
- Identified and proposed a fix for a memory leak occurring in several apps

## Education

**2017-2018** — **NC State University**

Pursued Master's Degree in Teaching English as a Second Language

**2011-2015** — **University of North Carolina at Chapel Hill**

Bachelor of Arts in Linguistics
Second Major in Asian Studies with a Concentration in Japanese
